Gentlemen:

I am writing on behalf of Eric P. Newman Numismatic Education Society, which would like to purchase Part 1 of the Interpol publication on money that covers counterfeits.

The Eric P. Newman Numismatic Education Society is a Missouri not-for-profit corporation organized in 1958 that operates Mercantile Money Museum, 7th and Washington Streets, St. Louis, Missouri, U.S.A.

Mr. Newman, who has written extensively on counterfeiting, is a prominent St. Louis businessman whose reputation and knowledge of currency and coin is recognized not only in the United States, but also internationally. He has advised our bank, as well as other Reserve Banks that have established money museums or exhibits, and we know him to be a person of great integrity and trustworthiness. We believe that the Interpol publication would be adequately safeguarded.

Would you let us know how it would be possible for that organization to purchase Part 1. Remittance will be forthcoming as soon as this matter can be cleared.

We will appreciate your cooperation.

Sincerely,

✓ Copy to Mr. Newman

Contrefaçons & Falsifications  
Counterfeits & Forgeries

Amsterdam, 15 March 1989

Our ref.: AK9568

Dear Madam,

Thank you for your kind letter of 9 January, written on behalf of the Eric P. Newman Numismatic Education Society. First of all, let me apologize for the delay.

For Part I of "Counterfeits and Forgeries" the Society needs the approval of Interpol in St. Cloud (France). I have sent them a "demande d'approbation", but I have not yet received their answer.

Part I, however, cannot be purchased separately from Part II. Part II offers information on all banknotes in and out of circulation.

I have enclosed our brochure, in which you will find all necessary information on this work of reference as well as several examples, a pricelist and an orderform.

"Counterfeits & Forgeries" is a loose-leaf information system; it consists of a Basic Manual as well as an annual subscription to the monthly updatings in order to keep up with the numerous changes in the world of currencies.

To prevent that a cashier accepts forgeries, Part I as well as Part II of the publication are essential:

Part I offers information on falsifications:

- A monthly list of false US-dollar banknotes
- Reproductions and descriptions of discovered forgeries.

Part II is a back-up information system, offering:

- Reproductions and descriptions of all banknotes in and out of circulation. Also indications of security features.
- Reproductions and descriptions of travellers cheques.
- A monthly Newsletter containing last minute information. If possible, with black-and-white reproductions.

-2-

-2-

The information in Part I is cumulative. In the binder you will find the information published in 1989, unless you order previous editions of 1988 and/or 1987 and/or 1986 as well.

The example page of Morocco in this brochure shows how all pages are going to be in Part II: Indicating security features by means of symbols. We started publishing these symbols at the beginning of 1988. The explanation of the symbols is at the back of each monthly newsletter.

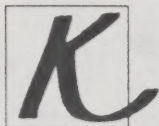

I trust that with this brochure I have informed you sufficiently, but if you need more information, please do not hesitate to contact me: I will be glad to be of service to you. I hope to hear from you again soon.

Kind regards,

Dear Sir:

Keesing Editeurs/Publishers wrote you sometime before 15 March 1989 requesting permission for us to purchase Part I and Part II of "Counterfeits and Forgeries." We were informed that Keesing sent you a "demande d'approbation," but a reply may not have yet been sent to them. The request on our behalf was initiated through the Federal Reserve Bank of St. Louis (P.O. Box 442, St. Louis, MO 63166, U.S.A.)

If there is any information or background about us which you would like to know, please let us furnish it to you. We have been engaged in research on counterfeit money for historical purposes and we operate a museum in which counterfeit money is displayed along with genuine money of the same type. We were established in 1959 and have a fine library covering counterfeiting. We are hopeful that you will be nice enough to grant to us clearance to subscribe to the "Counterfeits and Forgeries" publication. Would you be nice enough to communicate either to Keesing or to us or to the Federal Reserve Bank of St. Louis. Your cooperation will be much appreciated.

Sincerely,

We have just received the recent additions to Part I and Part II of your Banknote publication. We began our participation in 1989.

In your index in Part I, you list a group of countries on which counterfeit bulletins have been issued in the past. We would like to have the pages for Part I for as many prior years as you conveniently can supply to us, except for the United States which is summarized in what we already have. This would be most helpful to us, as, for example, we now have only one or two bulletins on Germany, Italy, Spain, etc. Do those named countries have summaries as well as individual counterfeit note details?

If there is anything further we should do to try to bring our Part I up-to-date, please let us know.

Thank you for your cooperation.

Sincerely,

Our ref.: AK12272 / 320095

Dear Sir,

Further to your letter of 5 October, we have sent you three previous editions of Part I of "Counterfeits & Forgeries", which makes your Part I as complete as possible. Before 1986 Part I was published in black and white, and that information is no longer available.

The countries you asked about are published only with individual counterfeit note details. They do not have summaries.

We have enclosed two invoices: nr. 20606 of 18 August, which was returned to us recently, marked "addressee unknown, this is an office building, give room number". We have now changed the address into 6459 Cecil Avenue. We hope that you have received all monthly updatings. If not, please let us know. The second invoice (nr. 21388) is for the previous editions.

We hope you will enjoy your subscription: If you have any questions or remarks, please contact us.

We are a not-for-profit numismatic museum, library and educational organization and have had some recent difficulties. Our free museum and library space was withdrawn from us after 20 years of operations and we have had some severe financial losses. We hope to relocate and recover soon. It is embarrassing for us to ask for your indulgence.

Would you be charitable enough to us to continue our "Counterfeits and Forgeries" mailings for a modest further period without charge and waive the past delinquencies. We want to keep our file of your publication complete and hope you cooperate with us. We are sorry to have caused you a problem.

We hope you will understand and grant us our request for the sake of numismatics.

Sincerely yours,

Contrefaçons & Falsifications  
Counterfeits & Forgeries

Dear Sir, Madam,

In this brochure you will find samples of the contents of "Counterfeits & Forgeries", Interpol's information system on genuine and counterfeit means of payment. The information system consists of two parts.

## Part I

The aim of Part I is to enable your cashiers or/and your specialized departments to detect a counterfeit.

Descriptions are given of the most significant counterfeits with detailed reproductions in full colour.

It goes without saying that the contents of Part I are strictly confidential. Therefore, Interpol reserves the right to approve each subscription.

## Part II

Part II gives full colour reproductions and descriptions of almost all the world's currencies and of most important travellers cheques. Furthermore, details are provided of currencies that are out of circulation or worthless. Each monthly update is sent out with a Newsletter containing last-minute information.

Part II can also be purchased separately from Part I without Interpol's approval.

"Counterfeits & Forgeries" constitutes a unique reference system which will keep the professional knowledge of your foreign exchange cashiers up to date. It is currently used by banks and financial establishments in more than 150 countries all over the world.

For any additional information please do not hesitate to contact us. Our subscription service or one of our representatives will be glad to assist you.

We hope to hear from you shortly.

Yours faithfully,

NOTE FROM THE SECRETARY GENERAL  
OF THE ICPO-INTERPOL

The Review "Counterfeits & Forgeries" - of which I have the honour to be Editor-in-Chief - is an official publication of the International Criminal Police Organization - Interpol.

The aim of the Review is not just to provide information about genuine banknotes and coins in circulation throughout the world, but also to assist in identifying the increasing amount of counterfeit currency and other forged instruments of payment at present in circulation.

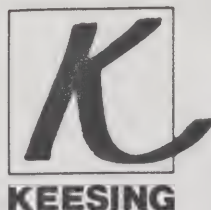

The Review is regularly updated and is backed up by the full resources of Interpol. Its circulation has steadily increased over the years.

A further increase in its circulation means only one thing: a more effective response to this form of crime, an essential yet simple tool in the hands of all those who really need it.

R.E. Kendall, Q.P.M., M.A.  
Secretary General
